

All Here Now

The boat's gonna come but we don't know when
The boat's gonna come but we don't know when
The boat's gonna come, come but we don't know when

We're gonna be happy and we're gonna be sad
We're gonna be happy and we're gonna be sad
We're gonna be sad, sad but we won't know why

But we're all here now
We're all here now

We're all gonna die but we don't know when
We're all gonna die but we don't know when
We're all gonna die, die but we don't know when

But we're all here now
We're all here now
